

No Farmers No Food

This is the slogan that the RI Farm Bureau has been using for the past few years. We have distributed thousands of bumper stickers with this motto. It is a variation of another popular bumper sticker that says No Farms No Food. But what good is a farm without a farmer? The slogan says it all! If we don't have farmers we will not have food and we need food to survive. Therefore it is important to keep farmers in business. You can help! Get Fresh and Buy Local! Buy all your produce, meat and other food products from local farmers at farm stands and farmer's markets.

No organization works to keep farmers in business more than the RI Farm Bureau. You can help save the farms in RI by joining the RI Farm Bureau! You don't have to be a farmer in order to join the RI Farm Bureau. We gladly accept Associate Members. As an Associate Member you can take advantage of all the discounts offered to our members (look under the Membership Info button and click on Member Benefits) and then click on the Join button and start saving \$\$\$.
